

# The Classification Society 2008 Meeting Call for Abstracts

June 5-7  
Washington University School of Medicine  
St. Louis, Missouri

<http://www.classification-society.org/csna/csna.html>

Bill Shannon ([wshannon@wustl.edu](mailto:wshannon@wustl.edu)) Washington University  
Doug Steinley ([steinleyd@missouri.edu](mailto:steinleyd@missouri.edu)) University of Missouri

The Classification Society is the **premier organization focused on the theory and application of cluster and classification methods** and is strongly interdisciplinary. Active members of the society come from diverse fields such as computer science, mathematics, psychology, biology and medicine, genomics, biostatistics, library science, astronomy, and business, to name a few. Our annual meeting is collegial and **open to anyone with interest in learning about or telling us about how cluster and classification is used for their data analyses**. This open invitation we hope will encourage you to visit us this June to discover if this is a good academic home for you.

We are now **accepting abstracts and registration**. A block of rooms have been reserved for the evenings of June 5<sup>th</sup> and 6<sup>th</sup> at the Parkway Hotel (<http://www.theparkwayhotel.com/>) with the conference being held two blocks away at the newly opened Farrell Learning Center and adjacent buildings located at Washington University School of Medicine (<http://fltc.wustl.edu/>).

**Abstract submission, conference registration, and hotel registration forms can be found on the Classification Society web page**
