
4th Workshop "Applied Statistics in LifeSciences"

Bern, 15th April 2011, 10:00 – 12:30

The group "LifeSciences" within SSS serves as a networking instrument between practitioners and scientists in the Life Sciences interested in applied statistics and applied statisticians. At the meeting, each participant will shortly introduce her/himself. Thereafter, three open statistical problems from the Life Sciences are presented (about 15 min), and discussed in plenum (about 20 min). On the one hand, this is a good opportunity for practitioners and scientists in the Life Sciences to get feedback and professional consulting on their data analyses. On the other hand, it presents problems and needs concerning applied statistics to the statisticians. This workshop promises synergistic gains for both sides.

A short abstract of the three contributions will be sent to all participants beforehand.

Location: University of Bern, Institut für Exakte Wissenschaften,
Room B1, Sidlerstrasse 5, 3012 Bern

Date and time: 15th April 2011, 10:00 – 12:30
(welcome coffee from 9 30 – 10 00 in front of the B1-door)

before the spring seminar of the SSS section Education & Research

Participation:

* We are pleased to receive your application for a contribution (15 min presentation of an open statistical problem). Please, send us a title and brief abstract (max. 150 words) **until 30th March 2011** to fraenzi.korner@oikostat.ch.

* If you intend to participate in the workshop, please, send us your e-mail address to receive the abstracts beforehand.
