

Improving Design, Evaluation and Analysis of early drug development Studies

SAVE THE DATE!

Discover our latest research at the IDEAS Dissemination Workshop:

Wednesday, 26th September 2018, 09.00-17.00,

Novartis Auditorium, Basel, Switzerland.

IDEAS is a H2020 Marie Skłodowska Curie Action Innovative Training Network for 14 early stage researchers working on statistical methods for early drug development. The network is funded by the European Union and the Swiss Government, and comprises of 8 full partners and 6 associated partners at major European universities, the pharmaceutical industry, and consulting companies.

The aim of the workshop is to translate and promote novel methodologies developed by IDEAS. The event is geared towards statisticians and trialists with an interest in novel methods for early phase clinical trials and will therefore be of interest to those working in academia and industry.

This event has been scheduled to coincide with the end of the [EFSPI Regulatory Statistics Meeting](#) where the Tuesday session at 16.30 will be focussed on the IDEAS project. To book your free place at our Dissemination Workshop, please contact Pamela Forster, Project Coordinator on p.forster@lancaster.ac.uk Please note that as numbers are limited, early registration is advised.

To find out more about our research please visit the link above or follow us on Twitter @IDEAS_ITN

The network is funded by the European Union's Horizon 2020 research and innovation programme under the Marie Skłodowska Curie grant agreement number 633567 and by the Swiss State Secretariat for Education, Research and Innovation (SERI) under contract number 999754557. IDEAS supervisors: Werner Brannath, Bjoern Bornkamp, Roberto Fontana, Mauro Gasparini, Lisa Hampson, Tom Jacobs, Thomas Jaki, Byron Jones, Franz Koenig, Xavier Paoletti, Martin Posch, Andrew Titman, Richard Vonk.
